SUMMARY

I'm **RIBIN K KARUN** a Motivated and detail-oriented 4th-year Computer Science Engineering student with strong skills in full-stack web development and hands-on experience building real-world academic projects. Proficient in HTML, CSS, with a solid foundation in Data Structures & Algorithms and Object-Oriented Programming. Experienced in designing user-friendly applications, database architecture, and backend logic, with proven teamwork and problem-solving abilities. Passionate about learning modern technologies and contributing to impactful software solutions.

RECENT WORKS

College Event Management System-Mini Project

Fullstack-Developer

June 2025- July 2025-College Project

- Led major development tasks for a full-stack event management web platform used for event registration and participant tracking.
- Designed application workflow, database schema, and implemented both frontend and backend modules.
- Built dynamic forms and event handling using HTML, CSS.
- Developed admin panel features for event creation, participant view, and approvals.
- Ensured responsive UI, smooth navigation, and performance optimization.
- Coordinated team tasks and contributed to debugging, testing, and deployment preparation.

INTERESTS

- Full-Stack Web Development
- Open-Source Contribution
- Learning New Frameworks & Technologies
